Examiner's Comment Regarding Information Disclosure Statements

In reviewing the file, the Examiner discovered Papers filed 7 September 2001, 2 August 2002 and 16 June 2003 which request consideration of several US and PCT applications. As the US Applications name a different inventive entity from that named in the instant application, those applications that have not been published have been considered but will not be published on cover of the patent issuing from this Application. Those applications that have published are made of record by listing the PG Pub. or US patent number on the enclosed PTO-892. The international applications cited have not been considered because the required legible copy was not provided.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel M Sullivan whose telephone number is 571-272-0779. The examiner can normally be reached on Monday through Thursday 6:30-5:00.
